

BONASYSTEMS™ **COMBOPAD**

An effective and simple cleaning system for a variety of floors and surfaces

Bonasytems ComboPad is an effective cleaning system. Ideal for supermarkets, superstores, petrol forecourt shops, industrial warehouses, depots, retail environments, shopping malls, railway stations, health clubs and reception areas.

Circular Pad

Hand/doodlebug Pad

Standard machine fittings

Longer cleaning intervals

Effective in high traffic areas

An effective and simple cleaning system for a variety of floors and surfaces

Flooring eventually goes grey and unsightly over time even though being cleaned routinely. This increasingly becomes an issue wherever freshness, cleanliness and hygiene count. A clean environment improves customer perception and increases sales. It impacts customers willingness to shop at a given retailer, influencing frequency of shopping and the length of time they stay.

The Cleaning Process

With the addition of a Bonasystems ComboPad, a cleaning pad with special layer treatment, available in sizes from 11" to 20" and fitting all scrubber-driers and single disc machines. The ComboPad far outperforms regular Melamine magic sponges with its unique hard-wearing characteristics.

Economic Advantages

Exploiting the pore deep cleaning technology, the Bonasystems ComboPad allows a massive reduction of expensive cleaning time. The cleaned areas are immediately usable after reduced drying intervals and cleaning intervals grow. Although hard to measure, the increased value of the floor and to the environment is also a benefit of the ComboPad cleaning system.

Each set of circular pads are effective for a minimum of 5,000 sq metres and the ComboPad material stays tear resistant even when used with structured tiles.

Effective characteristics

The Bonasystems ComboPad is highly effective. The innovative micro-splitting procedure cleans deeply even without detergents or solvent and leaves no residue, removing stains like oil, fat and rubber abrasion. The ComboPad is effective for cleaning mineral composite, porcelain, stoneware, terrazzo, marble, granite, lino and altro floors plus other surfaces such as windows, glass and plastics.

The Benefits of Bonasystems ComboPad

- No more costly basic cleaning
- Effective in refreshing high traffic floors
- Natural lustre returned
- Floor structure will not be damaged and inherent slip resistance will be restored
- Economic application providing tangible time and labour saving
- Longer cleaning intervals
- Universally usable with all scrubber-driers and doodlebugs
- Use one product for multiple surfaces
